In the North American-Review, to be published tomorrow, Col. Harvey predicts the election of Hughes as certain. It details as follows:

It is believed that a number of Americans were aboard. 34 of the crew of 104 were picked up and landed at Crook Haven, Ireland. Lloyds reports that a steamer anchored off Crook Haven has signalled that she has picked up the crew of a shipwrecked steamer. The Marina was engaged in trans-Atlantic service. She was 5204 tons gross and sailed from Newport News Sept. 21, arriving at Glasgow Oct. 10.

Newport News, Oct. 30—There were fifty Americans at the White Star steamship Marina, which was torpedoed, according to dispatches from London, where it sailed from here. They signed as horsemen and gave their homes in various sections of the United States.

Washington, Oct. 30—Dispatches to the state department say the Marina, when sunk, had a mixed crew of British and Americans, and that she was sunk by gunfire without warning. Consul Frost at Queens-town specified that the information he had transmitted was "provisional." Investigation will be made at once to determine the status of the Marina and the nature of the attack will determine whether pledges to the United States have been violated.

M'CORMICK SCORES ADMINISTRATION FOR "THE EASIEST WAY"

IN GREAT NOON MEETING TODAY
IN CHICAGO HE SHOWS
WILSON'S WEAKNESS.

ASK UNANSWERED QUESTION

Again Demands That Wilson Tell
What Nation Wanted to
Fight U. S.

Chicago, Oct. 30—Medill McCormick, one of the republican candidates for congressman at large, spoke to a large noonday audience today at the Grand Opera house. Mr. McCormick devoted his strong address to national issues. He said in part:

These are the days when the American people must consider the supreme issues of the campaign, when they must determine if they may entrust the security of the country during the perilous years ahead to an administration with an unequalled record for pledges broken, for the abandonment of principle to catch votes, for inconsistency at home and vacillation abroad. Americans, without respect to party; Americans, who would give this country a government which, respecting the rights of others, itself will compel respect, must judge of the extraordinary claim of the administration that it is responsible for the present prosperity that came only with the outbreak of the European conflict and for the still more extraordinary claim that it is Mr. Wilson who has kept us out of war. He has not kept us out of war with the Mexicans, whose soil we have twice invaded, who have slain American troops in uniform, who have murdered American men, who have tortured and ravished American women.

Has Not Kept Us Out of War.

The administration has not kept us from war with any of the great powers in Europe.

Which of them, in the agonies of a death struggle, has sought war with us, at a time when the weight of one hundred million Americans thrown into the scale of war would decide the issue?

With which one of them have we sought war?

We are one hundred millions—nearly 4000 miles from the scene of the conflict, seeking no enemy and sought by none among the great belligerents. If there were any credit due the head of the administration, how trivial it would be beside that due the unknown statesmen who preside over the destinies of Denmark and Sweden, whose shores are washed by the waters where fight the hostile fleets. How great the statesman who, unheralded, presides over the destinies of little Holland—ringed by the conflict, keeping the peace, keeping her self respect and the respect of Europe. How great the unknown genius who, in his obscure cabinet presides over the destinies of the little Swiss republic—beleaguered by belligerents on every border, whose armies stand upon her very frontiers, switzerland, proud little Switzerland, the home of citizen soldiers and of soldier soldiers, has kept the peace and has kept that which we have lost, but which we propose to regain—her honor.

Prosperity Due To War.

PROSPERITY AND PEACE! — PEACE, which we enjoy in spite of the ineptitude and the indecision in the conduct of our foreign affairs, which have brought us to the very brink of war, from which we have been saved not by Mr. Wilson, but by the death grapple in which the peoples of Europe hold one another. PEACE AND PROSPERITY! — Prosperity, bought with the tears and blood of Europe, whose agony marked the resurrection of our prosstrate industry and the end of whose sufferings will mark the return of our depression, unless we protect our own markets.

Have we forgotten the months following the enactment of a democratic tariff, and those which preceded the war, when empty freight cars filled the sidings of the railways; when the spindles were still, when hammers were silent, when furnaces were cold, when chimneys were dark, and when through the streets of the great cities tramped the army of willing, idle and hungry men?

Many an earnest Dixon man or woman has publicly endorsed Doan's Kidney Pills. Week after week, month after month, you've read their statements. Would these Dixon people recommend any medicine if it were not good? Would they confirm and repeat their statements after years had passed?

Local proof is good evidence. Testimony confirmed years after is better evidence. The following Dixon man's statement leaves no room for doubt. It must convince every kindred sufferer who reads it.

If your back aches—if your kidneys are weak—if you are afflicted with Doan's Kidney Pills and my kidneys became regular in action." (Statement given May 21, 1912.)

STATEMENT OF AMENDMENTS
CAPITOL BUILDING,
SPRINGFIELD, ILLINOIS,
Office of the
Secretary of State.

To the Constitution of the State of Illinois, and to Section 2 of an Act Concerning Corporations With Banking Powers, Approved June 16, 1887, and submitted to the Vote of the People at the November Election, 1888, and Adopted, To Be Voted Upon at the General Election To Be Held in the State of Illinois, at the Several Voting Places in Said State on the 7th Day of November, A. D. 1916, Pursuant to Resolutions Adopted by the Senate and House of Representatives of the Forty-Ninth General Assembly. This Statement is made in Accordance With Paragraph 9 of Chapter 7A, Hurd's Revised Statutes, 1916.

To the County Clerk of Lee County, Illinois: The Forty-ninth General Assembly passed a joint resolution for the submission of an amendment to the Constitution to the voters of the State of Illinois at the general election to be held on the seventh day of November, A. D. 1916, which joint resolution is in words and figures as follows:

"Resolved, by the Senate of the State of Illinois, the House of Representatives concurring therein, That there shall be submitted to the voters of this State for adoption or rejection at the next election of the members of the General Assembly of the State of Illinois, in manner provided by law, a proposition to amend Article IX of the Constitution by adding thereto an additional section to be known as section 14 of Article IX, as follows: "Article IX, Sec. 14. From and after the date when this section shall be in force the voters of the General Assembly over the subject-matter of the taxation of personal property shall be as complete and unrestricted as they would be if sections one (1), three (3), nine (9), and ten (10), of this article of the Constitution did not exist. Provided, however, that any tax levied upon personal property must be uniform as to persons and property of the same class within the jurisdiction of the body imposing the same, and all exemptions from taxation shall be by general law, and shall be revocable by the General Assembly at any time."

"Adopted by the Senate by two-thirds vote May 18, 1915. "Concurred in by the House by two-thirds vote May 18, 1915."

The proposed amendment affects sections 1, 2, 9 and 10 of Article 9 of the Constitution.

Section 1 of Article 9 is as follows: "The General Assembly shall provide each revenue as may be needed by levying a tax, by valuation, so that every person and corporation shall pay a tax in proportion to the value of his, her or its property—such value to be ascertained by some person or persons, to be elected or appointed in such manner as the General Assembly shall direct, and not otherwise; but the General Assembly shall have power to tax peddlers, auctioneers, brokers, lawyers, merchants, commission merchants, showmen, jugglers, tinkers, keepers, grocery keepers, liquor dealers, toll bridges, ferries, insurance, telegraph and express interests or businesses, vendes of patents, and persons or corporations owning or using franchises and privileges, in such manner as it shall from time to time direct by general law, uniform as to the class upon which it operates."

Under this section the only basis upon which taxes may be levied is that of the valuation of property. If the proposed amendment should be adopted section of Article 9 would be changed by the amendment so as to permit the Legislature to enact laws which would substitute different and suitable rates and methods for the just and sure taxation of each of the various classes of personal property, instead of the present so-called "uniform" method, which results in the escape of millions from taxation.

Laws passed pursuant to said amendment may provide for the assessment of intangible property at a lower rate than other forms of property, it being a matter of common knowledge that a comparatively large part of the intangible property of this State escapes taxation. Therefore, tangible property, such as real estate and various forms of personal property must bear disproportionate burdens.

Section 3 of the said Article 9 of the Constitution provides as follows: "The property of the State, counties and other municipal corporations, both real and personal, and such other property as may be used exclusively for agricultural and horticultural purposes, to railroads, religious, cemetery and charitable purposes, may be exempted from taxation; but such exemption shall be only by general law. In the assessment of real estate incommensurate by public easement, any depreciation occasioned by such easement may be deducted in the valuation of such property."

The proposed amendment would affect section 3, above quoted, to the extent that laws may be passed by the Legislature, classifying the personal property which may or may not be exempted by the General Assembly, provided that any exemption made must be by general and not special law, and shall not be construed but revocable at any time.

Sections 9 and 10 of said Article 9 of the Constitution of this State are as follows: "§9. The General Assembly may vest the corporate authorities of cities, towns and villages with power to make local improvements by special assessment, or by special taxation of contiguous property, or otherwise. For all other corporate purposes, all municipal corporations may be vested with authority to assess and collect taxes; but such taxes shall be uniform in respect to persons and property, within the jurisdiction of the body imposing the same. No other taxation shall be levied within the jurisdiction of the body imposing the same."

"§10. The General Assembly shall not impose taxes upon municipal corporations, or the inhabitants or property therein, for corporate purposes, but shall require that all the taxable property within the limits of municipal corporations shall be taxed for the payment of debts contracted under authority of law, such taxes to be uniform in respect to persons and property, within the jurisdiction of the body imposing the same. Private property shall not be liable to be taken or sold for the payment of the corporate debts of a municipal corporation."

First—Under the proposed amendment said sections 9 and 10, above quoted, would be affected by the amendment to the extent that laws may be passed by the General Assembly permitting municipal corporations to levy taxes on personal property according to classes, in such manner as the General Assembly may provide by law as it may elect.

Farewell Party for Miss Pope.

Another lively week end party is that now gathered at Dixon, Ill., under the friendly roof of the Reynolds family, with the two former Misses Reynolds—Mrs. Paul Harvey and Mrs. John Ralston—as hostesses. It is a farewell party to Miss Virginia Pope, who, with her mother, Mrs. B. H. Pope, goes to New York on Nov. 13 for the winter.

The house party includes the Van Rensselaer Coxes, Eames MacVeagh, and "Billy" Gamble, and will probably take a trip on the Rock river, as the Harveys have a beautiful and up to date houseboat, with which they have explored the many and little known waterways of central Illinois.

Both Mrs. Harvey and Mrs. Ralston, as well as Miss Pope, spent last summer studying with Mme. Yvette Guilbert at her country home at Interlaken, near Asbury Park.

Mme. Guilbert has taken the Maxine Elliott theatre in New York for a year, and there on Nov. 27 Miss Pope will make her debut with the wonderful, incomparable Yvette.—Chicago Tribune.

U. C. T. Luncheon

Starting what promises to be a most enjoyable series of social events, the luncheon of the members of Dixon Council No. 558, United Commercial Travelers and their wives and friends, held on Saturday evening at Miller Hall, was a pleasant occasion. Halloween decorations added to the attractiveness of the hall.

Early in the evening a program was given of readings and music. An Edison Disc Phonograph, through the courtesy of J. E. Moyer, added greatly to the pleasure of the guests. The luncheon, served later, consisted of a tempting array of good things, redounded to the credit of the men as epicures.

Two delightful surprises occurred during the evening—the presentation to Mr. and Mrs. Frank M. Keelby of a number of wooden articles, in honor of their wedding, and a deck of cards to Mrs. L. J. Bertoli, the occasion her birthday.

USE "CASCARETS" FOR LIVER AND BOWELS WHEN CONSTIPATED

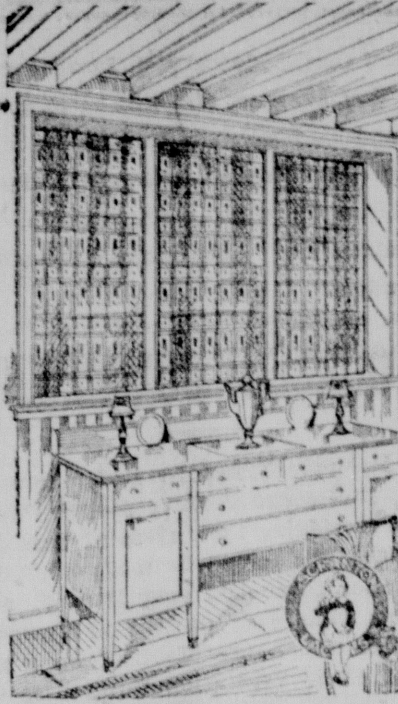

When bilious, headachy, sick, for sour stomach, bad breath, bad colds.

Get a 10-cent box.

Take a Cascaret tonight to cleanse your liver, stomach and bowels, and you men and women who have headache, coated tongue, a bad cold, are bilious, nervous, upset, bothered with a sick, gassy, disordered stomach, or have headache and feel all worn out. Are you keeping your bowels clean with Cascarets—or merely forcing a passageway every few days with salts, cathartic pills or castor oil?

Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the bowels.

Remember, a Cascaret tonight will straighten you out by morning. A 10-cent box from your druggist means healthy bowel action; a clear head and cheerfulness for months. Don't forget the children.

LACE Curtains have so much to do with the appearance of the home. As they are seen by both the guest and the passerby, how important it is to have them tasteful and distinctive, too.

We are showing an unusually attractive line of Scranton Curtain and Drapery Laces. Original in design and material, they nevertheless are offered at surprisingly low prices. Quality weaves for popular use at popular prices is the keynote of our Curtain Department's display. You will be interested even though you may not need new curtains now.

TWO U. S. CENSORS AT SAYVILLE FIRED

Are Charged with Acting Un-neutrally Toward U-53.

Washington, Oct. 30.—Lieutenant Charles S. Clarke of the navy has been relieved of duty as wireless censor at the Sayville station. Lieutenant H. S. Keep has likewise been relieved of duty at Siasconsett.

The removal of the two officers was due to the request of a foreign nation, understood to be Great Britain, and was based on charge that they had permitted the transmission of unneutral messages.

It was stated unofficially that the messages which led to the removal of the two officers related to the German submarine U-53. A great effort has been made to keep the whole matter secret.

It is understood that the request for the removal of the two officers was received by the navy department from the state department in such form that the navy department had no option but to grant it.

"That was a fine suit or coat you sold me 3 years ago."

THIS is the remark we are often greeted with by our customers.

There is a lot of satisfaction in selling garments that hold their shape so well and are made of such good materials that they more than give our customers their money's worth of service. You would naturally think that we would love to ask more for this kind of merchandise, but we do not. A few moments of your time inspecting this line will convince you. We have sold more suits and coats up to the present time than ever before. This next week will be a big selling event in our Ready-to-Wear Department.

FRANK O. LOWDEN

THE GOVERNORSHIP.

The Chicago Herald said editorially this morning: Illinois must not let the state election be tied to the tail of the national cart. State matters that spell a new era are to be considered. A most interesting stage in the evolution of government has been reached. Greatest of the tasks to confront the next Governor of Illinois is this: The organization of the state's business machinery. There are reforms ripe for hatching, such as a budget system, shortening of the ballot and a constitutional convention.

Lowden or Dunne — which is better qualified to bring these changes about?

Governor Dunne's administration goes before the voters, as it must, on its record of things accomplished. The striking fact in that record is the great increase in appropriations and the correspondingly great increase in tax rates. Four years ago Dunne made republican extravagance his chief issue. He thundered throughout the state his pledges of retrenchment and economy. But performance failed to follow on the heels of promise. The prodigality Dunne then denounced so roundly was represented by total appropriations of \$50,000,000. The total appropriations for this term have been \$84,000,000. Statisticians point out that the increase in cost of state government has amounted to \$1,000 an hour for every day of the Dunne regime, or \$25,000 a day, or \$700,000 a month, or \$8,500,000 a year.

But Governor Dunne says that during his term his party has not controlled the legislature. He therefore puts the blame for extravagance upon the opposition party. In doing this he logically puts the credit for the good legislation of his administration largely on the same side. The same legislature that passed the appropriation bills passed the acts which he cites as proofs of his own competency.

Besides—the Dunne administration presented to the last general assembly in 1915 a budget of estimates calling for appropriations of \$45,000,000. This was some 50 per cent more than the appropriations made by the republican general assembly against which he directed his charges of extravagance in the campaign of 1912.

But let us turn to a field in which the governor does not have to divide the praise or blame with the legislature—that of appointments.

Following his custom of thundering in the index with promises during a campaign and whispering in performance after the election is over, Gov. Dunne is declaiming that Col. Lowden, if elected, would not make good appointments. Impartial observers point out that the one public appointment with which Lowden's name has been particularly identified was that of Judge Landis to the federal bench. Landis was Lowden's campaign manager in 1904. His selection for judge was chiefly due to the Lowden influence. And Judge Landis is the highest type of public official in Illinois today. So much for what Lowden might or might not do in picking men to fill places of public trust.

On the other hand, it is the judgment of unbiased and capable observers that Dunne's appointments constitute one of the weakest spots in his administration. Of course there have been some good selections. But taken as a whole the appointments are not up to the average of men selected by the previous administration.

Good things have been done under the Dunne regime. The Herald gives the governor full credit for his share in them. Gov. Dunne is making the good roads movement a great card in his campaign. Well, the good roads work is being perfected under the provisions of the Tice bill, enacted by that same legislature over which Dunne says he has had no control. The Tice bill, too, grew out of the labors of a commission appointed during the Deneen administration. Good roads is an issue which, once started, goes on of its own accord. Its inception came before Dunne was governor. Long since public opinion gave impetus to the movement, the gasoline engine and automobile provided the great propulsion. The time has come for dealing with good roads in a larger way, and both Gov. Dunne and the legislature saw the fact at once. Good roads are the great factor in communizing the state, and Lowden is just as much for them as is Dunne.

So much for the past. When we come to the platforms of the two candidates we find them generally committed to the principal constructive reforms that Illinois has so long talked about. But a sophisticated electorate is coming to understand that too many candidates regard a platform as merely something to run upon.

The main question is this: Which of the candidates, Lowden or Dunne, seems more likely to put through the things for which he stands?

The independent voter cannot resist the conclusion that the candidacy of Frank O. Lowden offers the people of Illinois by far the better prospect for a more businesslike administration of state affairs.

Col. Lowden has had much experience in business in a large way. He has been identified with business from the time he started to work at \$8 a week, and he has been in contact with large affairs. He has had experience in handling millions. He is thoroughly versed in scientific methods of management under which the great enterprises of modern times are conducted. Capability is the note to which his campaign has been keyed. He has thrown his emphasis on the great overshadowing issue of reorganizing the machinery of the state. If elected the first task he will confront will be to simplify and modernize a governmental system that has grown up haphazard, overlapping at every turn, without co-ordination, without efficiency but with plenty of waste. He understands thoroughly the needs of the situation.

Col. Lowden has dwelt on the need of a budget system, whereby a real and not a farcical budget may be prepared and passed. He is strong for regaining for Chicago the "home rule" in control of public utilities which has been lost during the Dunne administration. His character offers potent grounds for the belief that he will strive to fulfill his promises. His temperament and popularity offer full foundation for a belief that he will force his measures through the legislature. Promise in his case is more likely to be

followed by actual performance.

The Herald entertains a sincere belief that if elected Col. Lowden will grasp the opportunity that awaits him—that his great aim will be to strive genuinely to make a record of which he and his family and the state will be proud. Such is his ambition. And it is backed by prestige, ability, experience and knowledge that can be most usefully employed in giving Illinois an able, businesslike and progressive administration. The Herald therefore recommends that its readers vote for Lowden.

DRINK HOT TEA FOR A BAD COLD

Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburger Brust Tee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teaspoon full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus driving a cold from the system.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

RUB BACKACHE AND LUMBAGO RIGHT OUT

Rub Pain and Stiffness away with a small bottle of old honest St. Jacobs Oil

When your back is sore and lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a 25 cent bottle of old, honest "St. Jacobs Oil" at any drug store, pour a little in your hand and rub it right into the pain or ache, and by the time you count fifty, the soreness and lameness is gone.

Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the ache and pain right out of your back and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin.

Nothing else stops lumbago, sciatica and lame back misery so promptly!

The special train of Republican state candidates on its N. Illinois tour will be shown in moving pictures at the Family tonight.

CURRENT COMMENTS

Dubuque Times Journal: It may be unpleasant work to property owners in ridding their trees of Tussock moths, but it will be more unpleasant for them next year if they neglect their duty now. The Tussock moths which are plentiful on trees and other vegetation now threaten to destroy our trees. The extermination of the moths now is the only means of preventing tree destruction next year.

Elgin Courier: Assertions from Democratic sources that the middle west will prove the real battle ground in the presidential campaign and that three states, Ohio, Indiana and Wisconsin, are likely to decide it next, are met by the declaration from Republican western headquarters that if this is the case, the election of Charles Evans Hughes is a certainty.

With election day less than four weeks away, a canvass of the middle western states, to ascertain the exact situation in each at this stage of the campaign, has just been concluded by publicity department of the Republican headquarters in Chicago. The canvass shows that the Republicans in Ohio, Indiana, Michigan, Illinois, Wisconsin, Minnesota, and Iowa are certain of victory both for the national and state tickets and that Kentucky and Missouri are the two doubtful states in the middle section.

Indiana, therefore listed as the most doubtful state in the middle west, will record a heavy Republican plurality, according to every report received at headquarters from the Hoosier state.

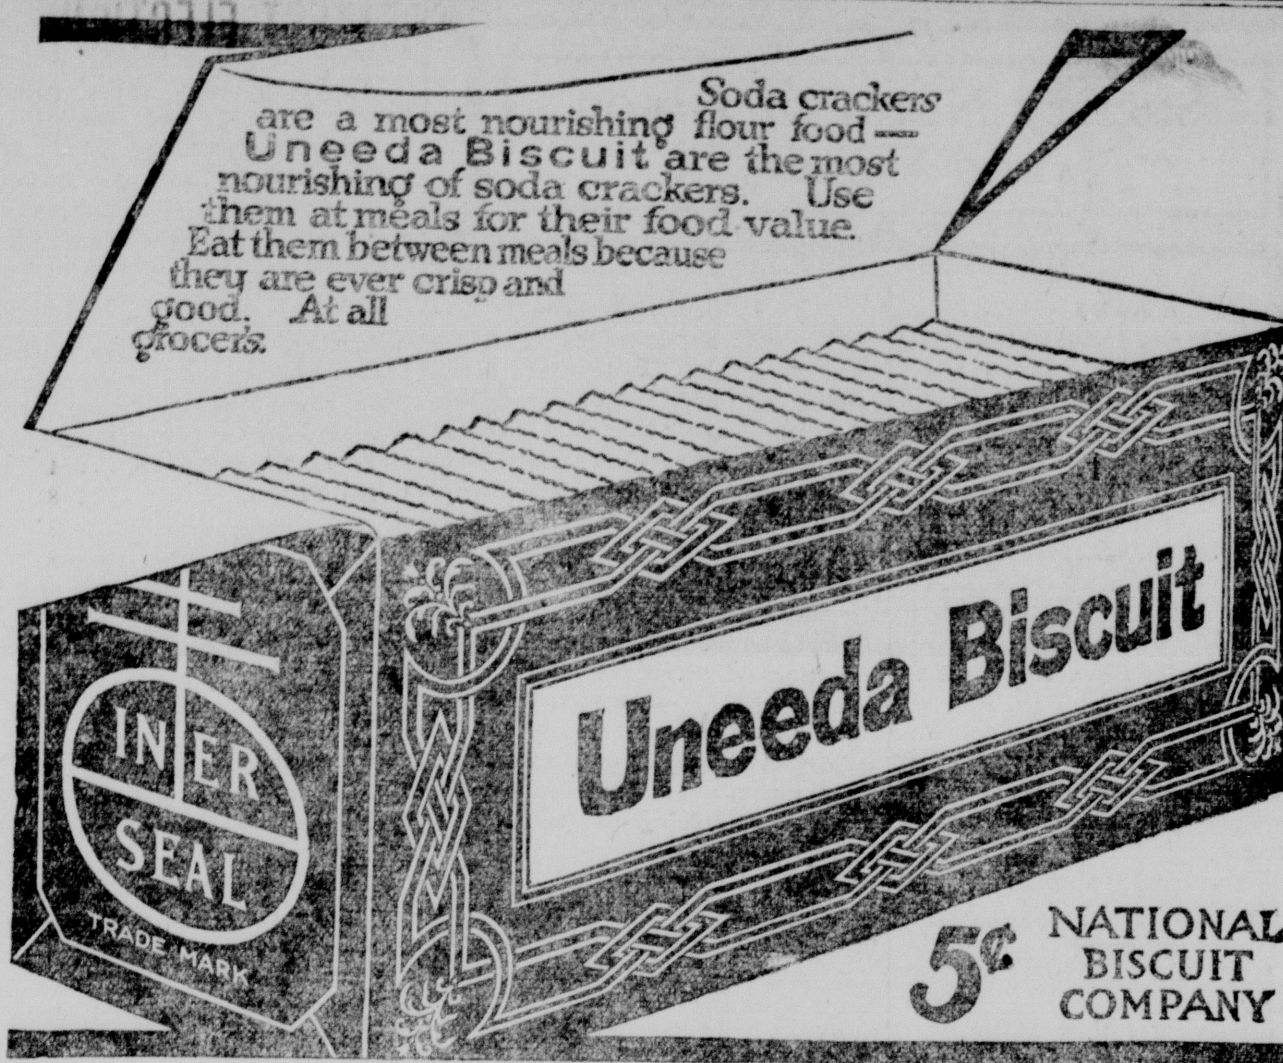

Lowell Citizen: This nation never did a better job in the uplift line that it did in Cuba. It went to war with Spain in behalf of the island eighteen years ago, and, having won, undertook to put the Cubans on their feet. That took four years. In that time Cuba and its people were made over, physically and mentally. Fourteen years ago they were fit to go it alone and our teachers were withdrawn. Since then the new republic has continued along the lines on which it started and has made amazing progress. Since 1902 its exports have increased from \$51,000,000 to \$214,000,000 in 1914-15, and its imports from \$65,000,000 to \$122,000,000. It is piling up wealth rapidly and its people are evented and prosperous. The facts are to the credit of the United States.

Rockford Republic: Mixed metaphors are about as bad as split infinitives. Both are literary sins. A correspondent in the Nation, finding himself mixing "goats" and "oxen" in a discussion of the Adamson eight-hour bill, hastened to add parenthetically that he is aware of his verbal crime, assuming that he is then free to transgress some more. One might as well commit murder and excuse the deed by saying "of course this is murder. I'm not stupid enough not to recognize that sanguinary fact," and then go on and murder some more.

Jacksonville Journal: Liquor dealers in convention in Rock Island have started a movement by resolution which they will be slow in carrying into effect. The liquor men propose a law to compensate them for property which they claim becomes less valuable if anti-saloon territory is created. In the past the existence of saloons has frequently greatly lessened the value of nearby property for general commercial purposes and to prove compensation due the liquor men will be difficult indeed.

Carmi Tribune-Times: Champ Clark deplores any "waving of the bloody shirt," and points to Taft's magnanimity toward the south as shown by its appointments of southern Democrats to the Federal bench. The plea is good—but one-sided. Wilson does not make it a practice to appoint northern Republicans to the bench or to anything else if he can help it. Republican administrations are national. Democratic administrations are sectional. The record proves it.

Quincy Whig: Mr. Hughes' enmity for pork and graft may be questioned by his political foes, but some of the big fellows in New York insurance world have vivid recollections of a fight he made against them, and are still carrying scars. Statesburg Republican-Register:

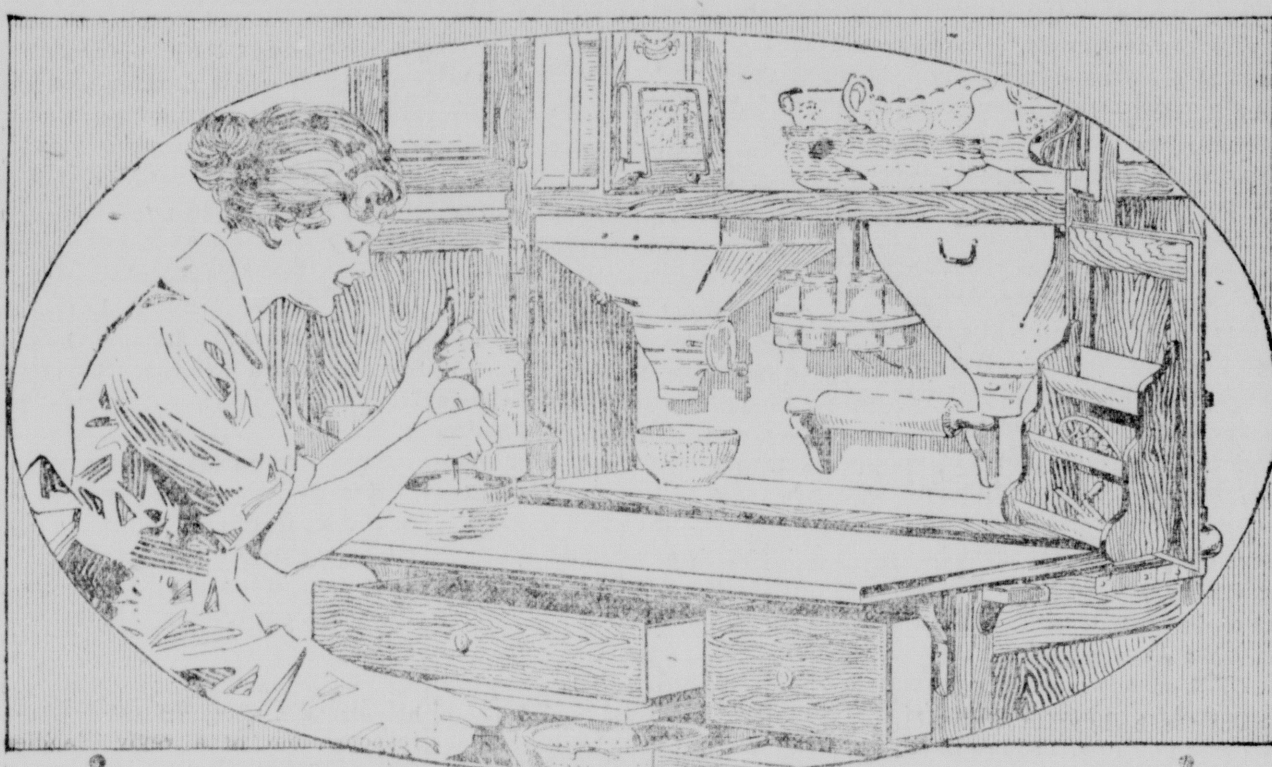

Col. Lowden will apply to the affairs of Illinois those same methods that have brought success to the concerns with which he is identified, and as we have indicated before there is great need of the application of these principles to state affairs.

Cairo Herald: When one is inclined to worry, the remark of an old lady should be recalled: "Yes, dearie, I've had an awful heap of trouble in my time and most of it never happened."

East St. Louis Journal: The Zepelins are playing as much havoc

with the lives of England as the automobiles are with the lives of the people here.

Rockford Register-Gazette: It will be the farmers' day in Illinois when Frank O. Lowden of the Mississippi farm is on deck as governor.

Every Woman Has the Right TO A HOOSIER

Every woman is entitled to every work-saving device that will make kitchen work easier. Going without a Hoosier—saving the very moderate price by taking miles of unnecessary steps, every meal you get and every meal you clean up after, is poor economy.

Do you realize that you can have a Hoosier in your kitchen immediately by paying only \$1.00.

And complete the payments at the rate of \$1.00 per week without interest or increasing the cost?

Make your choice and we will deliver it on payment of \$1.00—on a "money-back-if-you-are-not-delighted" guarantee.

The Vital Part of Your Cabinet

The picture above shows how the scientific arrangement of the Hoosier makes it a real helper. Storage space is above and below. There is plenty of unhampered room above and around the aluminum (or porcelain) work-table.

There is no useless little partitions to chop up the space and leave no room for work. Your cabinet must have big table room to work on.

Come and see these six exclusive Hoosier features:

- 1—The all-metal glass front door.
- 2—The gear-driven shaker flour sifter which makes flour light and fluffy.
- 3—Scientific arrangement—articles needed most frequently easiest reached.
- Resolving caster (shown in center of illustration.)
- 5—The ingenious, big-capacity sugar bin—hold more than twice as much as most other bins
- 6—Finally; the doors that roll back at the sides of the cabinet, entirely out of the way.

And regardless of the room in your kitchen, there's a special Hoosier model to fit, at a price you can easily afford.

PRICES AND TERMS

There are 1,000,000 Hoosier Cabinets in use. Enormous factory output makes our low prices possible.

If you buy now, you can have the Hoosier delivered at once by paying only \$1.00. Then pay at the rate of \$1.00 per week, without extra cost or interest.

Come In and See

Why Over a Million Women Use The Hoosier

Seven out of ten of these million Hoosier were bought on the recommendation of satisfied users. Women who know from experience what the Hoosier would do.

You may think that your kitchen is all right now—that it is perfectly convenient, but remember that these million women found that the most convenient kitchen can't compare with the Hoosier way. So the best you can do is to make personal investigation and decide whether the work-saving system we offer is better than the one you have.

workers—idle through no fault of their own, seeking work, begging alms even to keep soul and body together, to keep breath in the bodies of their children? Unless we elect a republican congress and president, pledged and prepared to write a tariff for the protection of American industry there will come upon us, at the end of the war, a depression more hurtful to credit, closing the mills, lasting longer, more permanent and more injurious than any in the memory of man now living.

Exports to Warring Nations.
Do you realize that of all the exports which leave our eastern ports for the western ports of Europe, over half goes to supply the immediate necessities of the belligerent armies? Not munitions alone, as Mr. Wilson would have you infer—not munitions alone, but arms for the armies, motors and horses for transport, harnesses for the horses, clothing for troops, foodstuffs to feed them and the hundreds of thousands of women who have taken their places in the great factories. That trade must come to an end; it must cease when the ink dries upon the treaty of peace. And against the falling tide of American export there will flow into our market, unless we elect a republican congress and president to guard against it, the rising flood of imports from Europe, the product of the hands of men disciplined in the iron and blood of war, as men never before have been disciplined—freed from the trenches to join the myriad women in the factories, all driven by waste and impoverishment of Europe to toil for lower wages and longer hours than ever before.

No Protection for Markets.
This administration has failed to provide for the protection of our markets, for the continuance of prosperity, as it has failed to provide for the defense of our homes or our honor. There is no other great country, save China only, whose shores lie naked and undefended, to invite the attack of an aggressor burdened with war debts but rich in trained armies, able and ready to seize our seaboard, to compel us to ransom them to pay the

price of the European conflict.

For months we have heard from the border, almost daily, painful evidence of the shame which Mr. Wilson has presented to the country in guise of an army bill. We have read the news of insufficient supplies, of the unsuitable armament, of inadequate transport, of mismanagement and suffering among the troops mobility in time of peace. Every regiment returning to the state brings the news that officers and men will not enlist under the present law or under Mr. Wilson. They have learned that we are impotent and they have learned the price of impotence; that with China alone, America in Mexico is sharing the shameful eminence of having its women ravished and men murdered without fear of the consequence and without regard to the government which owes them protection.

Failed to Protect Citizens.
Have you forgotten the solemn pledge, the once grave, but now ludicrous covenant given to the people by the democratic convention? I reads, "The Constitutional rights of American citizens protect them on the borders and go with them thru the world, and every American citizen residing or having property in any foreign country, is entitled to and must be given the full protection of the United States both for himself and his property."

The inconsistency, the readiness to yield convictions to expediency that has marked the domestic policy of this administration, finds its staggering exemplification in the contrast of that clarion pledge with the statement that "we are too proud to fight." They jointly hold the policy of strong words and weak deeds. We have declared that he would hold a government to a "strict accountability" for the lives of Americans; that we would omit no word or act to protect them; that we would not regard the illegal blockade of our American commerce, or the seizure of United States mails; that we would bring villa home alive or leave him dead.

Notes Carry No Weight.
But we have done none of the things which we boldly declared we would do. However firm, however harsh the tone of the president's notes have been they carried no weight, no conviction to the leaders of embattled Europe, or to the banditti below the Rio Grande. They were palmed by the course of the president; they remained sterile in his mind and on his lips; they implied no fortitude, no action, for during all the long course of query and threat and demand not a gun, not a ship, not a man was added to the roll until an impending election compelled a shabby compromise with the country. We have sent to London an even dozen, to Berlin a score, to Mexico 200 diplomatic communications.

In a world in arms, while in the midst of conflict, governments already are mobilizing for the industrial invasion of the world. We stand unready and unprepared. We must concert our actions and our purpose; we must join to replace a government of words by one of action, to secure the permanent material prosperity of America and to restore its moral authority. There can be no permanent profit, no enduring prosperity, no honor, no safety, no assured peace for us under an administration whose guide points only to the easiest way. The American people, their conscience aroused, their judgment awakened, will turn from the perious course which leads to poverty and to dishonor, to elect as president a man of balanced reason, of proven courage, of stern vigilance—

\$1,000 REWARD FOR TROLLEY MISCREANT

McKinley Traction Head Seeks Wrecker of Car.

Edwardsville, Ill., Oct. 30.—H. E. Chubbuck of Peoria, general manager of the Illinois Traction system, offered a reward of \$1,000 for the arrest and conviction of persons who pulled spikes from sixty ties which caused a wreck of a local McKinley car, in which one man was burned to death and twenty-two passengers were burned and bruised.

Chubbuck also announced that a section house of the Litchfield and Madison railroad, and the toolhouse of the traction system, both at Worden, near Edwardsville, were broken open the night of the wreck and a crowbar, with which the spikes were pulled, was taken from the toolhouse.

The man who was burned to death was positively identified as S. C. Condon, 40 West Twenty-second street, Chicago, who was a salesman for a New York cloak and suit concern. Among the twenty-two injured were four St. Louisans.

CABRERA STORY IS REPUDIATED

Carranza Emmissary Denies Talk Attributed to Him.

DIDN'T SCORE U. S. OFFICIALS

Alleged Attack Was Given Out by Mexican News Bureau—Three Are Arrested at Border for Alleged Violation of Neutrality—One Confesses.

Washington, Oct. 30.—Administration officials profess to believe that the highest officials of the Mexican government, including General Carranza, are making a concerted attempt to affect the political situation in the United States. This belief is based on an extraordinary number of statements criticising the administration and attacking American officials, that have come to the attention of the state department in the last forty-eight hours.

The statement given out here by the Mexican embassy's official news bureau, and credited to Luis Cabrera, which Cabrera disavowed, was in part substantiated by the Mexican embassy.

Almost simultaneously with these statements, the state department has received from its agent in Mexico City copies of interviews authorized by Carranza accusing President Wilson of failure to keep faith with Mexico, and a statement by General Pablo Gonzales, published in Carranza's official organ in Mexico City, accusing Mr. Wilson of lack of frankness and of an "unclean" policy.

New York, Oct. 30.—Luis Cabrera, chairman of the Mexican-American joint commission, said here that he did not authorize the statement issued by the Mexican news bureau in Washington on Saturday assailing American officials for alleged laxity in dealing with anti-Carranza propaganda in districts along the border.

A representative of the Mexican news bureau conferred with the Mexican members of the joint body in Atlantic City recently. Mr. Cabrera added, and probably carried back with him to Washington the impression that the Mexican commissioners were of the opinion that the United States should adopt a firmer attitude toward anti-Carranza propagandists.

Take Three on Neutrality Charge.
Nogales, Oct. 30.—Five men were arrested here charged with violating the United States neutrality law. They were Guillermo Barnett, Charles Kisselbach and Eduardo Ramirez, all of the Nogales Hardware company. Orders were issued for the arrest of Louis Loos, manager of the company, on the same charge, but the latter was out of town.

Louis Loos was later arrested. The arrest of Loos, following that of Kisselbach, a naturalized German, and Barnett, together with Edouardo Ramirez, a legalista agent and another Mexican, supposedly backs up the warning given out by Secretary of War Baker, that a plot existed to bring about another border raid by Mexicans before the presidential election, Nov. 7th.

Ramirez and Kisselbach gave bond. Barnett was reported to have been arrested on the Mexican side of the border and, according to reports received here, he was threatened with execution if he did not tell of the alleged conspiracy.

Trevino Moves to Strike Villa.
Juarez, Mex., Oct. 30.—Carranza agents here announce that General Jacinto Trevino and a large force had departed from Chihuahua City early in the day, supposedly headed for Santa Rosalia to engage the Villistas occupying the town. It was not denied that the move on Trevino was based on information that Villa had divided his force, leaving only a few men at Santa Rosalia and sending his main body on to attack Parral.

CONSTANTINE STILL YIELDING TO ALLIES

Greek King Removes Last Menace to Rear.

Athens, Oct. 30.—King Constantine, it is officially announced, has voluntarily offered to remove what the allies in Macedonia looked upon as a menace in their rear. He has ordered the transfer of the Third and Fourth army corps from Thessaly, and the Sixteenth from the Epirus to the Peloponnesus, the southern Greek peninsula.

The transfer is to begin on Nov. 3. There will be left behind only enough men to maintain order.

This concession comes after the King had refused to grant it on the insistence—almost the order—of the French military attaché. It followed a recent series of visits by allied ministers to the royal palace.

Its significance, it is believed here, is that King Constantine will soon be found co-operating with the allies.

KING AND COURT FLEE ROUMANIA

Berlin Report Says Ferdinand Is on Frontier.

TEUTONS LOSE IN JIUL VALLEY

On Western Front Rumanians Put Up Stiff Fight—Repulse All Attacks and Capture Guns and Prisoners. Berlin Reports Falkenhayn Pressing South.

London, Oct. 30.—The Rumanians, tenaciously defending their northern frontier, have inflicted three severe repulses on Von Falkenhayn's Austro-German armies. They have recaptured the village of Livechi, north of Campolung and on the direct road to Bucharest, taking 300 prisoners and five machine guns.

By a strong blow in the Alt valley, further to the west, they have driven the invaders back six and a half miles, while in the valley of the Jiul the Austro-Germans who had reached Tirgujiulj were defeated. The Rumanians at this point took 900 prisoners, two mountain Howitzers and eleven machine guns.

Berlin, Oct. 30.—King Ferdinand of Rumania, with the Queen and his court, is now in Jassy, in the extreme northeast of Rumania, ready to flee to Russia. The King is visibly affected by events of recent days, and has aged perceptibly.

Rumanians Gain in Jiul Valley.
Bucharest, Oct. 30.—A Rumanian advance in the Jiul valley is announced by the war office. The Rumanians on the greater part of the front have repulsed strong Teuton attacks and have made progress on the right. The official statement says:

"At Tulgheș and Bicaș there have been artillery exchanges. In the Trotus and Uzul valleys there has been no change.

"In the Prabhova valley our barrage fire stopped an enemy attack from Bahlui. We occupied Mount Ughimare. In the region of Dragoslavl we repulsed attacks. Our right wing is progressing.

"On our left wing, east of the Alt, the enemy attacked in numbers. The battle is continuing.

"In the Jiul valley we are continuing our offensive, pursuing the enemy, who is withdrawing to the mountains. Three officers and 250 men have been taken prisoners. Lieutenant Paprescu's command captured two batteries of four-inch guns from the Bavarian artillery, immediately turning them against the enemy. We captured four machine guns and a quantity of munitions.

"In the region of Orsova, after a violent bombardment, the enemy attacked toward Varful and Cocalul, but was repulsed."

Falkenhayn Drives South.
Berlin, Oct. 30.—Continued progress by General von Falkenhayn in the direction of Bucharest is announced in the war office statement.

No news concerning the pursuit of the Russo-Rumanian army in the Dobrudja is given out. Reports reaching here indicate that the retreating Russians and Rumanians are being pressed against the Danube swamps. The war office statement says:

"South of Tomoeser Pass an attack enabled us to reach Azuga. Despite the tenacious hostile resistance in the direction of Campolung, as well as further to the west, we made progress.

Balkan Front (Army Group 6)
Field Marshal von Mackensen.—The situation is unchanged.

Prince Leopold's Front.—The Russians held almost the entire line of the Stokhod under a lively fire, which attained its greatest violence west of Lutsk. A Russian attack launched from a forest east of Szelow broke down under our curtain of fire."

French and Serbs Gain.
Paris, Oct. 30.—Advances by the Serbians and French north of the Cerna river on the western Macedonian front are reported by General Sarraill, commander-in-chief of the allied armies.

The French captured the village of Gardilovo after a battle and, further west, a system of branches between Kenali and the Cerna.

The Bulgarian war office states that Serbian attacks were beaten off.

TWO SKELETONS UNCOVERED

Workmen Exhume Cadavers of Man About 20 and Boy About 6.

Waukesha, Wis., Oct. 30.—The authorities of Waukesha are investigating what may be a murder mystery. Workmen, while making an excavation for an addition to the Stillrock sanitarium, unearthed two skeletons which, medical experts say, were buried less than ten years ago.

One is that of a boy about six years old and the other of a young man about twenty.

Killed in Auto Upset.
Bloomington, Ill., Oct. 30.—Harry Osterman, young farmer of near Minonk, was killed when his automobile turned turtle on a muddy road. His eleven year old son leaped to safety as the car capsize.

IS YOUR HEALTH WORTH \$5.00?

Woman Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Lima, Ohio. - "I was all broken down in health from a displacement. One of my lady friends came to see me and she advised me to commence taking Lydia E. Pinkham's Vegetable Compound and to use Lydia E. Pinkham's Sanative Wash. I began taking your remedy and took \$5.00 worth and in two months after three doctors said I never would stand up straight again. I was a midwife for seven years and I recommended the Vegetable Compound to every woman to take before birth and afterwards, and they all got along so nicely that it surely is a godsend to suffering women. If women wish to write to me I will be delighted to answer them."

- Mrs. JENNIE MOYER, 342 E. North St., Lima, Ohio.

Women who suffer from displacements, weakness, irregularities, nervousness, backache or bearing-down pains, need the tonic-strengthening properties of the roots and herbs contained in Lydia E. Pinkham's Vegetable Compound.

If you want special advice, write the Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass.

DIXON OPERA HOUSE.
There are any number of card combinations that will beat a pair of queens in a game of poker, but there has never been a play produced in New York or Chicago that can beat "A Pair of Queens" for continuous laughter or incessant interest. This piece from the pen of Otto Hauerbach author of Madame Sherry, High Jinks and other successes, fresh from its wonderful run of over 20 weeks in Chicago, is coming to the Opera House tomorrow night, and theatre goers of this city may prepare for the most enjoyable evening they have ever experienced. "A Pair of Queens" is a real Broadway show, with a cast and production that will be the talk of the town for many days after the show has appeared here.

BAD COLD? HEADACHY AND NOSE STUFFED
"Pape's Cold Compound" ends Colds and grippe in a few hours.
Take "Pape's Cold Compound" every three hours until you have taken three doses, then all gripe misery goes and your cold will be broken. It promptly opens your closed-up nostrils and the air passages of the head, stops nasty discharge or nose running, relieves the headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.
Don't stay stuffed-up! Quit blowing and snuffling. Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Accept no substitute.
